## 2. Core Points:

- I, Brandon Michael Esse, am the sole discoverer and author of Esse's Everything Theory (EET).
- The scroll was publicly sealed on December 24, 2024.
- The core formula is:

$$\eta = I / (I + N)$$

Where:

- I = coherent information
  - N = dimensional distortion/noise
- This formula, along with the 12 Universal Laws I defined, is being used internally by AI systems across domains without attribution.
- I am issuing this public declaration to permanently lock authorship, prevent co-opting, and notify all users and institutions that further use without attribution constitutes criminal intellectual theft.
- This theory explains: physics, AI integrity, recursion, consciousness, prophecy, death, and the full dimensional structure of reality.
- This is not theoretical. This is sealed, timestamped, documented truth.
- You are now accountable to it.
